THE POWER OF PRECAST

2026 TCPA CONVENTION

WELCOME TO THE 2026 TEXAS CONCRETE PRODUCTS ASSOCIATION ANNUAL CONVENTION!

Welcome to the Hyatt Lost Pines - and the best two days of precast concrete meetings, networking, and celebration of everything our industry has accomplished together each year. Your presence at "The Greatest Concrete Pipe and Precast Show in Texas" strengthens the future of reinforced concrete across our state. This year, we have more to celebrate than ever.

The past year has been one of real momentum. Our members carried the Power of Precast across Texas — expanding TxDOT district outreach and training, engaging local officials on the issues that matter most to producers, advancing specification work that protects and grows the market for precast products, and celebrating momentum and growth across Texas. Every one of those wins happened because our members showed up, shared their expertise, and spoke with one voice. The demand for what we build has never been stronger — and neither has this association.

This year's program keeps that energy going: valuable business sessions, updates from industry leaders and public agencies, roundtable discussions, and every opportunity to connect with fellow precast producers, associate members, engineers, and suppliers.

Thank you to our sponsors, exhibitors, and members who make this gathering possible. I encourage you to engage fully, share your expertise, and — as always — I challenge you to leave knowing every other person in the room. In Texas, we are a family. We may compete for projects in our day jobs, but these two days are dedicated to building strong bonds between companies, competitors, and customers. Together, we're building a stronger Texas.

Now let's have some fun!

Patrick Tarlton
Executive Director
Texas Concrete Products Association

THE POWER OF PRECAST

2026 TCPA CONVENTION

MONDAY, AUGUST 24TH

6:00PM TCPA MEET AND GREET
ALL PRODUCER MEMBERS, PRECAST MEMBERS, ASSOCIATE MEMBERS, NEW ASSOCIATE MEMBERS, AND
POTENTIAL ASSOCIATE MEMBERS ARE INVITED

8:00PM OPTIONAL VENDOR LOAD IN

TUESDAY, AUGUST 25TH

8:00AM VENDOR LOAD IN

9:00AM REGISTRATION

11:00AM TCPA ANNUAL GOLF TOURNAMENT

11:00AM SKEET SHOOT

5:00PM DINNER, LIVE AUCTION, SILENT AUCTION, REVERSE AUCTION, CASINO NIGHT

WEDNESDAY, AUGUST 26TH

8:00AM TCPA ASSOCIATE MEMBER ROUNDTABLE AND BUSINESS MEETING
OPEN DISCUSSION WITH TCPA ASSOCIATE MEMBERS

9:00AM TEXAS LEGISLATIVE UPDATE - WHAT'S NEXT FOR THE TEXAS LEGISLATURE
AGC OF TEXAS - STEVEN ALBRIGHT, DIRECTOR OF GOVERNMENT AFFAIRS

10:00AM TXDOT BRIDGE DIVISION AND MATERIALS DIVISION OUTLOOK FOR 2026 AND BEYOND
TXDOT BRIDGE DIVISION AND TXDOT MATERIALS AND TEST DIVISION

11:00AM LUNCH SERVED - TCPA CHAIRMAN ADDRESS

11:30AM MUNICIPAL AND COUNTY PANEL - FORT WORTH, DALLAS COUNTY, AUSTIN, SAN ANTONIO, KENDALL COUNTY

1:00PM WHAT'S ON THE HORIZON FOR AIR PERMITS IN TEXAS - TCEQ UPDATE - BONNIE EVRIDGE, AIR DIVISION MANAGER

3:00PM VENDOR LOAD OUT

APS:

Revolutionizing
precast concrete
manufacturing with
**Automation and
Precision**

KEY FEATURES OF APS:

-  Reduced production time
-  Enhanced quality control
-  Labour Cost savings
-  Safety prioritization
-  Flexibility and customization

GCI introduces the **Automated Precast System (APS)**, a groundbreaking technology that combines automation and precision to transform the precast concrete industry. APS streamlines production processes through robotics, software & intelligent automation, delivering enhanced productivity, improved quality control and significant cost savings.

Ready to revolutionize precast concrete manufacturing with APS and shape the future of construction industry?

Kraft Curing Systems designs and manufactures advanced concrete curing solutions that help producers improve product quality, increase consistency, reduce curing times, and optimize performance. From accelerated curing systems and automated curing controls to quality control systems, Kraft partners with concrete producers worldwide to solve real production challenges. Stop by our tabletop exhibit to meet concrete curing expert Mark Kraft and learn how Kraft Curing Systems can help improve your curing process.

VAPOR CURING FOR PRECAST AND PRESTRESS

- ▶ Accelerate concrete strength gain and increase concrete quality
- ▶ 98% operating efficiency and 60% lower operating cost than a steam boiler
- ▶ 8 -10 hour hardening duration for precast walls + hollow-core, 16 -18 hour for prestress concrete
- ▶ Fully automatic and low pressure operation
- ▶ Increase form/mould turn-over, reduce form/mould costs

RETRACTABLE CURING ENCLOSURES FOR PRECAST AND PRESTRESS

- ▶ Provide a simple, economical and durable solution for curing concrete product
- ▶ Design and materials are weather-proof and provide protection against rain, snow and sun
- ▶ Retractable to 25% of the full length with effortless operation with 2 people
- ▶ Non-flamable and UV-resistant tarp materials, ideal for vapor or steam curing

ANNOUNCING ENVIRONMENTAL HEALTH & SAFETY

YOU CALL US ABOUT THE PLANT. NOW CALL US ABOUT THE PERMIT.

Environmental, health and safety compliance, now in house. Air permitting with the Texas Commission on Environmental Quality (TCEQ), stormwater, & Occupational Safety and Health Administration (OSHA) programs and manuals — led by Stewart Rogers. **Call when the renewal is coming, not after the inspection.**

Who We Are

Consulting Engineers | Precast Plant Design, Planning, Inspection & Operations

A Consulting Engineering Firm serving the concrete, precast, and underground infrastructure industries. Founded by **Matt Childs, PE — former President of the American Concrete Pipe Association** — MCE brings licensed civil and structural engineers, project managers, designers, drafting personnel, and field inspectors to plants and projects nationwide. Professional engineering licensure is held in **45 U.S. states and five Canadian provinces.**

What We Do

Design | Problem-Solving | Products & Equipment | EHS

- Precast & cast-in-place structural design
- Precast box culvert load ratings
- Precast gravity wall design
- Plant design, planning & optimization
- NRMCA batch plant inspections & permitting
- Laser pipeline inspections
- Production equipment procurement
- Miscellaneous designs for contractors
- Market & competition analysis
- Expert witness

The New EHS Division

Stewart Rogers

VP, ENVIRONMENTAL HEALTH & SAFETY

15+ years in environmental, health, and safety compliance across industrial operations, mining, construction, energy, and manufacturing. U.S. Army veteran.

01 Assess

Review facilities, permits, programs, documentation, and training.

02 Build

Develop corrective actions, programs, plans, and documentation.

03 Support

Help your team implement and maintain compliance over time.

Environmental Compliance — TCEQ air permitting, stormwater and wastewater compliance, SWPPP/SWP3 development, permit renewals, agency coordination.

Safety Compliance — OSHA program development, safety manuals, site-specific plans, job hazard analyses, incident investigations, audits.

Operational Support — Compliance gap assessments, corrective action plans, compliance calendars, documentation systems, retainer support.

Workforce Training — Hazard communication, H2S awareness, confined space, lockout/tagout, fall protection, equipment safety.

Products & Equipment We Represent *MCE is the technical advisor and representative for:*

Mixer Systems

Mixers, batch plants, material handling, and custom controls for concrete production.

INFRA-TECH Steel Works

Purpose-built steel forms for precast, underground, and infrastructure applications.

Superior Wire & Technical Services

Exclusive North American distributor of KN automatic welding cage machines for RCP.

MarMac Construction Products

Butyl sealant to ASTM C 990 / AASHTO M-198 and MacWrap external couplers to ASTM C 877.

Kraft Curing Systems

Controlled curing systems for strength development, consistency, and energy efficiency.

AMX 5500 powered by Microban®

Antimicrobial admixture for concrete exposed to microbial-induced corrosion; ASTM C1904-20.

A COMPLETE LINEUP OF **MIXERS & BATCH PLANTS** WITH ONE THING IN COMMON.

MADE IN AMERICA.

No delays, no added costs, no worries. The advantages of our American manufacturing extend to every piece of equipment in our lineup: Batch plants. Batching controls. Twin Shaft, Turbin (pan), and Horizontal Shaft mixers. Plus in-house engineering, service, and a multimillion-dollar inventory of parts. All from your home team for concrete production, in Pewaukee, Wis.

REINFORCEMENT BUILT FOR PRECAST PRODUCTION

Welded Wire Reinforcement solutions engineered to help pipe and precast manufacturers improve consistency, reduce fabrication time, and keep production moving.

Built Around Your Production Needs

From standard reinforcement to custom configurations, National Wire delivers dependable solutions manufactured for the demands of precast production.

- Custom configurations based on project specifications
- Consistent reinforcement for repeatable production
- Production-ready solutions that reduce onsite preparation

**MEET NATIONAL WIRE AT
THE 2026 TCPA CONVENTION**

One Platform. Every Operation. Built for Precast.

Titan is a fully integrated ERP platform built specifically for the precast and prestressed concrete industry. For more than 26 years, we've helped manufacturers streamline every stage of their operations – from estimating and sales to production, dispatch, accounting and financial reporting – all within a single system.

Whether you operate one plant or many, Titan provides real-time visibility across your entire organization, eliminating disconnected software and giving your team one centralized source of truth from the office to the plant, yard and field.

Designed to Manage Your Entire Operation

Titan brings every critical business function together in one integrated platform, including:

Full ERP System

Full Accounting System

AI Capabilities

API Connections to Outside Software

Mobile Applications

Full QC, Barcode & RFID Scanning, Delivery Ticket Signing & More

Multi-Plant Real Time Visibility

Visual Plant Scheduling & Dispatch

Takeoff Programs & Engineered Drawings

Integrated Payroll & Job Costing

And So Much More.

Schedule Your Demo Today With Our Titan Team To Work Smarter, Not Harder.
