EVENT AGENDA

TUESDAY, SEPTEMBER 23RD:

- 6:00PM** **TCPA MEET AND GREET**
ALL PRODUCER MEMBERS, PRECAST MEMBERS, ASSOCIATE MEMBERS, NEW
ASSOCIATE MEMBERS, AND POTENTIAL ASSOCIATE MEMBERS ARE INVITED
-
- 8:00PM** **OPTIONAL VENDOR LOAD IN**

WEDNESDAY, SEPTEMBER 24TH:

- 8:00AM** **VENDOR LOAD IN**
-
- 11:00AM** **TCPA ANNUAL GOLF TOURNAMENT**
-
- 11:00AM** **DOWNTOWN BASTROP ESCAPE & RECHARGE SPOUSE RETREAT**
-
- 11:00AM** **SKEET SHOOT**
-
- 5:00PM** **DINNER, LIVE AUCTION, SILENT AUCTION, REVERSE AUCTION, CASINO NIGHT**

THURSDAY, SEPTEMBER 25TH:

- 8:00AM** **NCPA DISCUSSION WITH NICK RHOAD**
NICK RHOAD, NCPA PRESIDENT
-
- 9:00AM** **TEXAS LEGISLATIVE UPDATE - WHAT'S NEXT FOR THE TEXAS LEGISLATURE**
AGC OF TEXAS - STEVEN ALBRIGHT, DIRECTOR OF GOVERNMENT AFFAIRS
-
- 10:00AM** **TXDOT BRIDGE DIVISION AND BUY AMERICA DIVISION OUTLOOK FOR 2026
AND BEYOND**
BERNIE CARRASCO, P.E., TXDOT BRIDGE DIVISION; AND EDUARDO ACOSTA,
TXDOT BUY AMERICAN DIVISION
-
- 11:00PM** **TCPA ASSOCIATE MEMBER ROUNDTABLE AND BUSINESS MEETING**
OPEN DISCUSSION WITH TCPA ASSOCIATE MEMBERS
-
- 1:00PM** **WHAT'S ON THE HORIZON FOR AIR PERMITS IN TEXAS - TCEQ UPDATE**
SAMUEL SHORT, AIR DIVISION MANAGER
-
- 2:00PM** **ASCE NATIONAL ENGINEERING UPDATE**
CAROL HADDOCK, PRESIDENT OF ASCE NATIONAL
-
- 4:30PM** **HAPPY HOUR, ASSOCIATE GATHERING, AND HOSPITALITY SUITE**
-
- 8:00PM** **VENDOR LOAD OUT**

The header image is a composite. On the left, a worker in a white hard hat and safety vest stands in an industrial setting, overlaid with a semi-transparent orange filter. The words "WELCOME LETTER" are written in large, white, bold, sans-serif capital letters across the center. On the right, there are stacks of large, grey concrete pipes and precast concrete blocks, also overlaid with a semi-transparent orange filter. A vertical, white, cursive script that reads "Convention" is positioned on the far right edge of the image.

WELCOME LETTER

WELCOME TO THE 2025 TEXAS CONCRETE PRODUCTS ASSOCIATION ANNUAL CONVENTION!

We are excited to gather industry members and our transportation partners for two days of meetings, networking, and celebration of our industry's accomplishments. Your presence at "The Greatest Concrete Pipe and Precast Show in Texas" helps strengthen the voice and future of concrete products across Texas.

This year's program offers valuable business sessions, updates from industry leaders and public agencies, and opportunities to connect with fellow precast producers, associate members, engineers, and suppliers. From agency presentations to industry roundtable discussions, we've designed this convention to truly celebrate the greatest precast market in the country - right here in the greatest state in the United States.

Thank you to our sponsors, exhibitors, and members who make this gathering possible. I encourage you to engage fully, share your expertise, enjoy the time with colleagues from across the country - and I challenge to leave knowing no strangers in the room. In Texas, we are a family. While we may compete for projects in our day jobs, the next two days are dedicated to building strong bonds between companies, competitors, and customers. Together, we're building a stronger Texas.

Now let's have some fun!

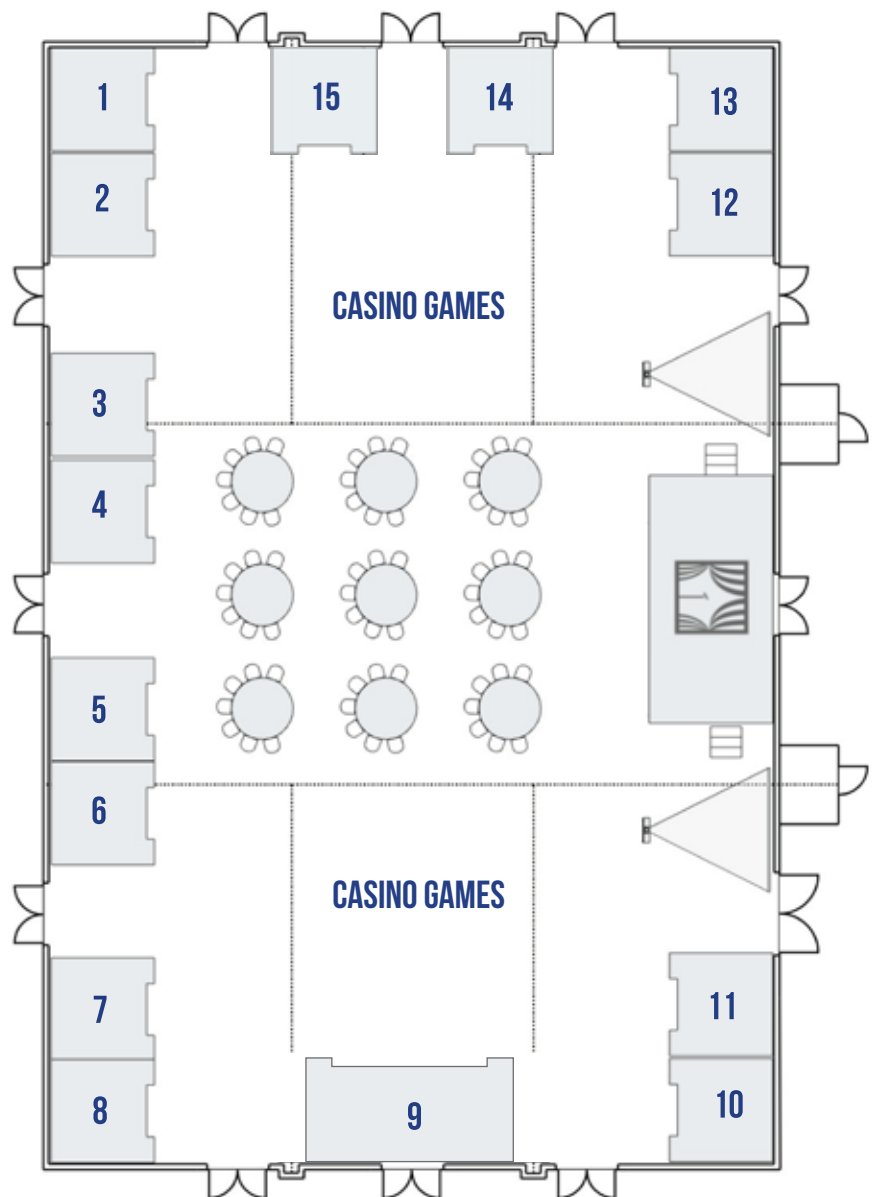

A handwritten signature in black ink that reads "Patrick Tarlton". The script is fluid and cursive, with a large, sweeping "P" and a long, trailing "n".

Patrick Tarlton
Executive Director
Texas Concrete Products Association

Western Precast has been producing quality Precast Concrete Products as part of the West Texas and beyond landscape for over 79 years. As a certified plant we partner with our municipal, State and Federal specifiers to build the national underground infrastructure here in our corner of the world. Buy America and Build America is our mission! Western has become the trusted source for long term durable, sustainable precast concrete products over the past eight decades. Concrete is the superior choice for value, strength and a time-tested track record of superior performance. Precast Concrete utilizes locally mined raw aggregates that come together to create products that are safely placed back into the earth as the green natural option.

Stik-Pruf Green

The Perfect Environmentally Friendly Chemical Concrete Release Agent

Saves Wood Forms

Lengthen the life of your wood forms by up to 300% by waterproofing them with Stik-Pruf Green.

Reduces Metal Form Maintenance

Prevent rust by applying Stik-Pruf Green, which provides up to 5x the coverage of oil-type form coatings.

Cuts Tube Form Stripping Costs

Save time removing wax or plastic coated fiber tube forms.

Reduces Clean Up Time

Spraying Stik-Pruf Green daily saves time cleaning paving machines, mixers, spreader-finishers, dry mix trucks, etc.

Improves Concrete Finish

Create smooth, white, flat, non-oily surfaces with a minimum of voids.

Applied Easily

Apply by brush, mop, or spray. Spraying is recommended for optimal coverage.

Safe and Environmentally Friendly:

- Exceeds new national VOC standards
- Non-Solvent
- Biodegradable
- Food Grade-Quality Ingredients
- Non-Toxic
- Greater than 50% Renewable Content
- Higher Flash Point
- Non-Carcinogenic

CIVIL & STRUCTURAL ENGINEERING SOLUTIONS FOR PRECASTERS AND CONTRACTORS

What We Do

Matt Childs Engineering offers many specialized services. Our experienced Engineers bring decades of expertise in civil and structural engineering, with a focus on buried infrastructure and concrete applications. Our Sales team delivers top-quality solutions to the Precast Concrete Industry and Heavy Industrial sectors, ensuring the highest standards in products and service.

States & Regions

Matt Childs Engineering, founded by industry leader Matt Childs, leverages extensive expertise and a commitment to excellence in civil and structural engineering. Our team of engineering and sales professionals, licensed across over 30 U.S. states and five Canadian provinces, delivers prompt, precise designs tailored to meet the specific requirements of each region. We are dedicated to providing exceptional consulting, design, and engineering solutions to meet the needs of our clients in diverse industries.

Our Partners

Superior Wiring & Technical Services

North American Distributor of KN Cage Machines

Infra Tech

Manufactures steel forms for precast concrete products across residential, commercial, industrial, institutional, and underground infrastructure applications.

Stone Strong Systems

Matt Childs Engineering delivers the design and installation solutions for the premier precast retaining wall system.

PERMANENT WATERPROOFING SOLUTION

XYPEX ADMIX FOR NEW CONCRETE CONSTRUCTION

Xypex Admix is the preferred choice for installing Xypex Crystalline Technology into new concrete structures for the collection and treatment of wastewater. Because Xypex Admix is blended into the mix at the time of batching, it becomes an integral part of the entire concrete matrix reducing the potentially damaging effects of water infiltration and microbial induced corrosion.

Bio-San is a unique combination of potent antimicrobial properties with Xypex Crystalline Technology for use in areas where H₂S gas is likely to accumulate, providing maximum protection in severe sewage conditions.

Flexibility in application means Xypex Admix can be installed in precast products such as pipes, manholes, and lift stations or cast-in-place structures in wastewater treatment plants.

Xypex Admix Advantages:

- Permanent integral waterproofing
- Enhances concrete durability
- Value engineering
- Waterproof under extreme hydrostatic pressure
- Highly resistant to aggressive and chemical environments
- Non-toxic / No VOCs
- Less costly to install than most other methods

Xypex Coating Advantages:

- Doesn't require a dry surface
- Apply to either side of the concrete
- Won't puncture, blister or tear
- No costly surface priming or leveling
- Sealing, lapping or finishing is not required
- No need for protection during backfilling
- Permanent waterproofing
- Enhanced concrete durability
- Doesn't contain VOCs
- Non-toxic and non-combustible
- Can be applied safely in confined spaces

XYPEX SURFACE APPLIED COATINGS FOR REHABILITATION & REPAIR

Xypex's coating systems and repair products enable municipalities, engineers and contractors to economically and confidently rehabilitate inefficient or deteriorating wastewater collection and treatment structures. Xypex Concentrate and Modified are applied as slurry coatings to the surface of the concrete. Unlike other materials that need a dry substrate, Xypex products require a moist surface – conditions typical of existing wastewater structures.

Xypex Patch'n Plug, Concentrate Dry-Pac and Megamix products are specifically designed to permanently repair concrete defects such as honeycombs, static cracks and faulty cold or construction joints; they also fill tie-holes and seal around pipe penetrations. Megamix II with Bio-San contains bioactive mineral solids that provide antimicrobial protection for extreme sewage environments.
